DETAILED ACTION

Election/Restrictions

1. Claims 7-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 05 April 2006.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 07 September is in compliance with the provisions of 37 CFR 1.97 and have been considered by the examiner.

Claim Rejections - 35 USC § 102

3. Applicant has overcome the rejection under 35 USC 102.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was

not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 1-6, and 10-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 1 252 973 A1 (cited by applicant) in view of Petroski et al, 2004/0018809. '973 discloses the claimed invention, including the limitations of newly added claims 13-18, but does not disclose that the light transmitting member is fused, as defined by applicant, to the abrasive substrate. '809, [0022], teaches heating a polymer material, injecting the material into a hole in a polishing pad, and curing the polymer, thereby bonding the pad and member.

Response to Arguments

7. Applicant's arguments, see pages 7, lines 11 through page 8, lines 14, filed 07 September 2006, with respect to the rejection(s) of claim(s) 1-6, 10 and 12 and under EP '973 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of EP '973 in view of Petroski et al, '809.

Conclusion

8. This Office action is made non-final.
